

McPhillamys Gold Project

Project Update

Special Projects*

Thanking neighbours

An important focus for the McPhillamys Gold Project is managing the issues and potential impacts with our neighbours and local landholders.

This is a work in progress and will continue in the coming months as we finalise the project details and the Response to Submissions (RTS).

We know that the uncertainty can be difficult and we appreciate the time and efforts of our neighbours as we work our way through this part of the application process.

Importantly, this work has been helped by the patience, understanding and goodwill displayed by everyone involved. Thankyou.

Winter Fire Festival

Regis Resources is pleased to sponsor the 2020 Winter Fire Festival, which this year features some great options to join the fun in a 'COVID-friendly' way.

There will be no large events or crowds and people from outside the area can join in online, through innovative events including wine tasting and a 'virtual bonfire'.

This new approach will also mean people can get a taste of winter in the Central West, from anywhere in the world. For more details go to: orange360.com.au

Kings Plains winner!

Congratulations to Peter Dando from Kings Plains, for his winning entry (right) in the 2020 Blayney Haybale Art Challenge. It's a great achievement but especially so given it was his first attempt at this kind of tin sculpture. Well done!

Regards,
Tony McPaul
Manager Special Projects
