

## Project Update

*Tony McPaul*  
Manager  
Special Projects

### *The impact of COVID-19*

COVID-19 has brought significant change to our community. Every aspect of life, at work and at home, has been impacted.

McPhillamys Gold Project is continuing, but with major changes to the way we work. Our office is unattended and most meetings are now done by phone or online.

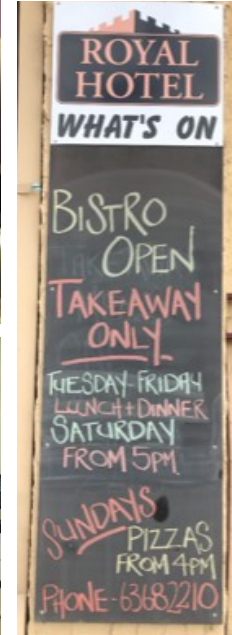

### *Open for business*

Many other businesses have also been impacted and our thoughts are with those who have had to let staff go, or close down.

Despite these difficult times it's good to see that some local businesses are still open and doing their best to adapt. This week we're helping to get the word out so locals can continue supporting them.

Regards,

**Tony McPaul, Manager Special Projects**
