

Project Update

Tony McPaul
Manager Special Projects

Meeting community representatives

Like many local businesses, Regis Resources has been doing a lot of online meetings over the past few months, and that is likely to continue for some time.

On Monday 1 June we'll be holding our first online meeting with representatives from the McPhillamys Community Consultative Committee (CCC).

The CCC includes members from Regis, local Councils, community groups and local residents. Feel free to get in touch with any of the members if you have questions or feedback to provide in relation to the project. For contact details and information about the CCC go to: <https://mcphillamysgold.com/mcphillamys/community>

Open for business

We've had a great response to our offer to promote local businesses and we're pleased to feature more of them in this week's column. Let's all support them where we can.

Regards,

**Tony McPaul, Manager Special Projects
Regis Resources**
