

# McPhillamys Gold Project

## *Consulting with our neighbours and the community*

Since 2013, Regis has worked continuously to engage and consult with our neighbours, the communities of Kings Plains and Blayney and other project stakeholders. We have an open invitation for people to call in to our office in Blayney any time during office hours, Monday to Friday.

Our consultation and communication will continue as the project progress through the application and assessment process.

### Consultation to date:

- Over 1,000 face to face meetings with neighbours, landowners and local stakeholders.
- The 2018 Open Days – a drop-in event running over three days to share project details and updates with the community.
- Five Community Information Sheets distributed to close neighbours and Kings Plains residents.
- An information stand at the 2019 Blayney Show, Cadia Open Days and Blayney Farmers' Market.
- Fortnightly ad in the Blayney Chronicle to provide news and updates.

### What's coming up next:

- The 2019 Open Days (Tuesday 14 May and Wednesday 15 May) — sharing results of studies and giving updates on the progress of the project.
- A community meeting on Thursday 23 May — discussion/feedback forum in Blayney.
- An information stand at the Blayney Farmers' Market—third Sunday of each month.
- Face to face meetings with our neighbours and stakeholders seeking project information.
- Briefings on request for neighbours, local residents and community groups.
